

ProFlow™ Series
Small Footprint Lifts

1350 Rockefeller Rd., Wickliffe, OH 44092, PH 440.943.4111, info@KtecInc.com, www.KtecInc.com

POCKET LIFTS

(line side assist, fit into cart lift pockets)

K-Tec small footprint pocket lifts bring flexibility and top quality to complement **lean material flow** programs.

Features include:

- Choice of Pneumatic or Hydraulic Designs
- One Lift Size Fits Small or Large Carts and Workstations
- Low Closed Heights Help Keep Top Container Layers within Proper Ergo Range
- Built-in Top Platform Limit Switch Assures Centered Carts Before Lifting

Model Shown: PL3000P

INDUSTRY LEADING DESIGN

Low lift closed height helps meet standard ergonomic height limits for manual load/unload with standard payloads on carts.

Special square edge platform and a load centering limit switch help to stabilize off-center loads for safety. Numerous other “attention to detail” features help K-Tec meet rigorous **safety**, reliability and durability standards. K-Tec ProFlow™ Series products carry a **two (2) year warranty**.¹

COMMITMENT TO SUCCESS

K-Tec identifies and benchmarks relevant applications, addresses ergo/safety issues and provides on-site feasibility reviews where required. Application engineers are available by conference call or direct appointment to help walk through the early planning and front end design phase of lean material flow projects.²

K-Tec also designs ergo-support products such as conveyors and carts to provide an integrated, dependable solution. A “try before you buy” **demo program** for qualified customers delivers a hands on look at our products without wasting investment dollars.

1. See web site for warranty detail. 2. May be subject to consulting charges.
